Also, if you are interested, I have a poster in the exhibition titled: 'From "population group" to "behavioural risk factors" – Community response shifts public health strategies for sex workers in STBBI prevention policies in Canada.'

Oh, thank you for the compliments. When I first applied to AIDS 2020, I was imagining something more intimate, a personal presentation for my fellow activists and old friends in the U.S. It's been a work in progress for me now for some time. This version is what evolved for this virtual forum, and I do look forward to updating it.

Fascinating Andrew, thank you for pulling this together. I hope that this becomes more than just a presentation and becomes available to scholars and activists, in order to understand the history of the sex worker movement. Thank you
